CAREER OBJECTIVE

Computer Science graduate working as a PHP Developer, with hands-on experience building live PHP/MySQL web applications and REST APIs across multiple production platforms. Skilled in PHP, Core Java, and MySQL, with basic knowledge of React, JavaScript, and Spring Boot. Currently contributing to and growing within full-stack product teams.

WORK EXPERIENCE

PHP Developer — Smart Global Solutions, Coimbatore | July 2025 – Present

Converted to full-time after a 3-month internship (April 2025 – June 2025) at the same company.

- Working on live HRM (Human Resource Management) and ERP web applications built in PHP and MySQL.
- Built REST APIs for TrueStory — signup, login/OTP verification, story insert/fetch, ratings, and profile update — powering both the mobile app and web version, using a custom multi-tenant ORM (CID-based) with token authentication.
- Developed the TrueTalk frontend — a multi-page podcast/video platform with responsive layouts, audio carousel, and category grids — and integrated the TrueTalk REST APIs for data binding.
- Built True Guide, a PHP business directory/marketplace platform with category listings, a React-based search results page, an enquiry/lead-capture flow, and a leads dashboard; implemented multi-language support (English/Tamil/Hindi).
- Developed True Motors, a vehicle marketplace (buy/sell/rent/lease) with separate before-login and after-login navigation states and site-wide language switching.
- Developed an admin panel and REST APIs for a Stories Management system (approval workflow, category/language management) using Bootstrap Table with server-side pagination and search.
- Worked on ERP modules: BOM Master and salary report (team-wise grouping, CSV export, account number formatting).
- Debugged and modified production-level PHP/MySQL codebases based on QA/testing team reports.

TECHNICAL SKILLS

- Languages: PHP, Core Java, JavaScript (basics)
- Web: HTML, CSS, Responsive Design, Bootstrap 5, React (basics)
- Backend Frameworks: Spring Boot (basics)
- Database: MySQL, SQL Queries, Joins, MySQL Workbench
- Java: OOP, Collections Framework, Multithreading, Exception Handling
- Other: REST API Development, TCPDF, UiPath (RPA), Tableau, Postman, Git, GitHub

LIVE PROJECTS

TrueTalk | Frontend + API integration — podcast/video platform, web & mobile
<https://truetalk.ai.in/>

TrueStory | REST API backend — mobile app & web
Play Store: [com.truestory.sgsapp](https://play.google.com/store/apps/details?id=com.truestory.sgsapp)

True Motors | PHP vehicle marketplace
Buy/sell/rent/lease vehicles with dealer registration and role-based navigation.

PERSONAL PROJECTS

DropPrint — E-commerce, Custom T-Shirt Design Platform | *React 19, Vite, Tailwind CSS, Zustand, Konva, React, Spring Boot, Supabase*

- Built a canvas- and 3D-based t-shirt design editor for real-time product customization using Konva and React Three Fiber, with realistic decal projection onto a 3D model.
- Developed Spring Boot REST API endpoints for product data, cart, and order management, connected to Supabase as the database.

Vehicle Rental System — Core Java Console Application | *Core Java, OOP, Authentication, Business Logic, MySQL*

- Designed a vehicle rental system using OOP principles (inheritance, encapsulation, polymorphism) with complete booking, payment, and return workflows and role-based login.

CERTIFICATIONS

- Core Java Certification — Fernzo Academy (Aug–Nov 2025): OOP, Collections Framework, multithreading, exception handling
- RPA Certification — RVS College of Arts and Science (2024): Built a UiPath automation bot for automatic YouTube scrolling
- Data Analytics Job Simulation — Deloitte via Forage (Feb 2026): Interactive Tableau dashboard, Excel data classification

EDUCATION

- B.Sc Computer Science — RVS College of Arts and Science, Coimbatore (Aggregate: 72.5%), 2022 – 2025
- HSC — KSC Government Higher Secondary School (72.83%), 2022
- SSLC — KSC Government Higher Secondary School (76.4%), 2020

LANGUAGES

- Tamil: Native
- English: Working Proficiency
